Longarm Services

ALL longarm quilting services are completed on our Gammill Statler Stitcher machines. The Statler offers state of the art stitch and design precision. We offer a wide selection of quilting patterns and designs. The goal of our trained quilting staff is to help you turn your quilt top into a treasured heirloom.

QUILTING OPTIONS

Basting allows for hand quilters or home machine quilters have us put the layers of your quilt together for you. Large stitches make it easy to remove once your quilt is complete.

Edge-to-edge designs span the length and width of the quilt and will be repeated in rows to produce an all-over design on the quilt top. This method of longarm machine quilting is popular due to the lower cost. There are many designs to choose from.

Combo an edge-to-edge interior with the outer border customized.

Custom designs are specifically designed for your individual quilt. Separate designs may be used for blocks, borders and sashing.

Quilt Check-in

- To check-in your quilt, please have your quilt top and backing separately pressed, folded, and hanging on a hangar. Bring to the longarm room and one of our longarm quilting staff will assist you with filling out the appropriate paperwork.
- Questions? Call 616-748-6505.

Quilt Preparation

- Check to be sure all seams are secure. **If your quilt does NOT have an outside border PLEASE stay-stitch** around your quilt within 1/4" to ensure seams do not pull apart when quilted.
- The backing **MUST** be at least 4" larger than the quilt top on **ALL** four sides.
- If your quilt or backing is directional, please pin a note to mark the top.
- Remove all buttons or other embellishments.
- Backing must be squared and all edges and trimmed even if backing is pieced together.
- Press the quilt top and backing. Fold and drape over a hanger when bringing in to LT.
- Quilt top and backing must be brought in as separate pieces, not sandwiched together.
- We do accept a variety of backing fabrics. If using fleece or minky we reserve the right to refuse it if it is too stretchy or has a 4-way stretch. We do not accept flat bed sheets or decorator fabrics for quilt backing, they are too dense and cause skipped stitches.
- We do not accept heavily pieced backings with lots of seams. If your backing is pieced with blocks, strips, etc. our longarm staff will determine if it is acceptable for quilting on our machines.

NOTE:

** Fullness/puckers within a quilt and it's borders cannot be quilted out. If your quilt is not square and has fullness and/or puckers we cannot guarantee that tucks will not be sewn in. Excessive fullness in borders may result in the quilt corners not being squared.*

Batting & Quilt Pricing

BATTINGS AVAILABLE

Our battings are sold by the linear inch, therefore, you only pay for what you need.

80/20 Cotton-Poly Natural..... \$.22/linear inch
